Lenox Hill Radiology Selects Medinformatix RIS to Implement New Fully Integrated Radiology Information System

NEW YORK - Lenox Hill Radiology, one of New York's largest and most trusted radiologist-owned and operated imaging centers, selected Medinformatix to design and implement a new electronic Radiology Information System, it was announced today by Donovan Spamer, Lenox Hill Radiology CEO.

"When we switched to Medinformatix RIS, we were delighted by how quickly modifications and enhancements were achieved with a new paperless system," said Spamer. "There have been huge improvements in all aspects of our services including billing, scheduling, medical records, and front desk operations. We are impressed by Medinformatix's tireless attention to our needs and grateful for the leap in employee productivity and the increase in revenue we've seen."

"We were pleased that Lenox Hill Radiology -- known for its exemplary work and professionalism -- hired us to work with them to design and implement a new electronic Radiology Information System," said Thomas McGonigle, Chief Executive Officer of Medinformatix. "15 years of success in providing IT solutions to the healthcare industry makes Medinformatix uniquely capable of helping clients improve patient care, streamline work flow and meet objectives while cutting costs, improving productivity and maximizing profits."

About Lenox Hill Radiology

Lenox Hill Radiology was founded in 1988 and is a radiologist-owned and operated imaging center. Our goal is to provide state of the art imaging services coupled with accurate diagnosis and efficient services. Our combination of dedicated specialty physicians, friendly compassionate staff and cutting-edge technology allow us to offer our patients only the very best in diagnosis, management, follow up and care.

About Medinformatix:

www.medinformatix.com

Medinformatix, Inc. is a leading national provider of fully integrated Electronic Health Records. The products have been built around Medinformatix 25 years of workflow expertise. Our product is designed on a single database using Microsoft SQL. Whether the installation is a single physician who went Live in 1994, a national Cardiology practice, the busiest Radiology practice in Manhattan, or one of 15 other specialties we service, we accommodate their needs. See why so many practices from various specialties choose to use our award winning products: 13 Microsoft nominations in 8 years.

Medinformatix can turn the dream of a paperless, integrated practice into a reality.
