A MedInformatix Product Enhancements
See what MedInformatix has been working on in 2015. Topics will cover enhancements to the main application, a preview of our next generation Patient Portal, HL7 engine improvements, updated documentation, and more!

⇒ Recommended for: All Users

B Interactive Roundtables by Specialty
- Radiology
- Ophthalmology
- Primary Care/ Family Practice
- Pediatrics
- Cardiology
- Specialties groups are tentative depending on registration.

These interactive group sessions give you the opportunity to discuss your real-world issues with others in your specialty. Share your good ideas and lessons learned while you learn from the success (and mistakes) of others. Roundtables traditionally receive the highest ratings from Summit attendees.

⇒ Recommended for: All Users

C Electronic Measures
A discussion of the emergence of electronic measure reporting both in Meaningful Use and other reporting programs. We will cover the increasing need for adoption of code/value sets as the industry moves toward standardization of healthcare language and what that means for reporting and everyday workflow.

⇒ Recommended for: All Users

D Meaningful Use 2015 and Beyond...
Danger Will Robinson, Danger. Meaningful Use for Stages 1 and 2 are being significantly altered for 2015 through 2017 and Stage 3 is being prepared for rollout in 2018. What do we know? Where are we going? How will we get there? Find out in this session, during which we’ll preview Meaningful Use for 2015…and beyond.

⇒ Recommended for: All Users

E October 1st: ICD-10 is Here for Good! Now What?
No more delays, no more extensions. It’s nearly time to flip the switch and move into this brand new world. Don’t worry, we’ll all get through this together. This session will cover not only the nuts and bolts but an overview of how ICD-10 will affect your workflow. Where do I need to get started in MedInformatix? What do I need to do right now? Do I need to change the way I document an exam? What do I need to do on September 30th? And on October 2nd?

⇒ Recommended for: All Users

F Hot Topics In Healthcare
Beyond Meaningful Use, there are many other industry and governmental initiatives coming our way. Learn what’s coming down the pike…and how to avoid getting run over by it.

⇒ Recommended for: All Users

G Grab Bag
Do you have a burning question for MI Staff? Back by popular demand, here’s your chance to ask us anything! A fishbowl will be placed at the Registration Desk, please feel free to contribute a question to be answered by our panel during this session.

⇒ Recommended for: All Users

H Ambulatory Client Advisory Board Discussion
With the Radiology Chapter of the MI-CAB continuing to make progress through 2014, the newly formed Ambulatory Chapter is off to a great start. One of the most important sessions of the entire conference, this is your chance to interact with the Client Advisory Board members that represent you and hear about their experiences, discuss trends and concerns, help improve MI product offerings, and learn how you can stay involved throughout the year. Don’t miss this!

⇒ Recommended For: All Users

I Discover The Latest Tips and Techniques
Whether a new user or an old-timer, you may not know all of the best ways to access the power of MedInformatix – from patient search and scheduling, billing, clinical workflow, all through the patient process -- come discover (and share) your tips and techniques for maximum productivity.

⇒ Recommended For: All Users

J Revenue Cycle Management Discussion
In this session, we will look at how to use all of the capabilities within MedInformatix to reduce denials, manage the denials that do come in, and maintain a healthy cash flow. We’ll discuss ZirMed and PhoneTree Integration and other techniques for insurance and patient balance follow-up.

⇒ Recommended for: Administrative, Billing, Business Office, Front Desk, and Physician Users

K Managing Your Patient and Provider Portals
Take a deep dive into the MedInformatix Patient Portal and Provider (Referral) Portals – from setup to managing the options and data, to trouble-shooting issues.

⇒ Recommended For: Administrators, Schedulers, IT, Front Desk Users
### Sessions Descriptions

| L | **IT: SQL Server Configuration and Maintenance Plan Workshop**  
In this session, we’ll start with a discussion of important SQL Server settings and maintenance plan concepts. Then we’ll walk through configuring a newly installed MedInformatix database and setup its maintenance plans.  
⇒ **Recommended for: System Administrators, IT** |
| M | **MU2 Essentials**  
A review of Meaningful Use Stage 2 and all essential information to attest successfully. We will discuss the transition from Stage 1 to Stage 2, implications of new/updated reporting requirements, and everything you need to know in order to meet MU2.  
⇒ **Recommended for: All Users** |
| N | **IT: Performance Troubleshooting SQL Server**  
The dreaded “Not Responding” message is showing up again. Is it SQL Server’s fault? We’ll discuss and demo some troubleshooting steps to identify or clear SQL Server as the culprit. We’ll also share some common SQL Server scenarios that cause poor performance.  
⇒ **Recommended for: All Users** |
| O | **Streamline Your Scheduling Workflow**  
Is your scheduling and pre-visit workflow smooth and painless for you and your patients…or is it trying your patience? Join us for an in-depth workflow discussion of the pre-patient visit from scheduling, pre-authorization, and eligibility verification through confirmation calls and reminders.  
⇒ **Recommended for: Administrators, Business Office, and Front Desk Users** |
| P | **IT: Improving Interactions with Third Parties**  
This session will go over our new MI Connect HL7 engine, document viewer, and discuss other new enhancements that can improve the interactions between MedInformatix and third party applications.  
⇒ **Recommended for: System Administrators, IT** |
| Q | **Site-Specific Sessions**  
One of our highest-rated sessions each year, Site-Specific Training is structured as a full 2-hour block of time during which your practice will have one-on-one time with a pre-assigned, dedicated trainer. Topics and questions must be submitted by Friday, July 3rd. You will be scheduled for one of the following times: 8:00-10:00am, 10:15am-12:15pm, 1:15-3:15pm, or 3:30-5:30pm on Friday, August 14th and you will be notified of your scheduled time by Friday, July 17th. These will be arranged on a first-come-first-serve basis and space is limited.  
⇒ **Recommended for: Any practice with specific questions looking for one-on-one time with a dedicated trainer.** |
| R-A | **Radiology: Meaningful Use for Radiology**  
This session will be a review of Stage 2 and Stage 3 Topics for radiology groups regardless of participation, with a focus on supporting your MU participating referral groups.  
⇒ **Recommended for: All Radiology Users** |
| R-B | **Radiology: Radiology Client Advisory Board Discussion**  
The Radiology Chapter of the MI-CAB continues to make progress through 2014 and into 2015. One of the most important sessions of the entire conference, this is your chance to continue to interact with the Client Advisory Board members that represent you and hear about their experiences, discuss trends and concerns, help improve MI product offerings, and learn how you can stay involved throughout the year. Don’t miss this!  
⇒ **Recommended for: All Radiology Users** |
| R-C | **Radiology: Scheduling for Radiology**  
This session will be an in-depth workflow discussion of the pre-patient visit from inbound order processing through scheduling, pre-authorization and eligibility verification.  
⇒ **Recommended for: All Radiology Users** |
| R-D | **Radiology: Revenue Cycle Management for Radiology**  
This session will be an in-depth workflow discussion of the pre-patient visit from inbound order processing through scheduling, pre-authorization and eligibility verification.  
⇒ **Recommended for: All Radiology Users** |
| R-E | **Radiology: Radiology Workflow Topics**  
This will be a round-up session to review and reinforce new capabilities and how you can implement them in your imaging center.  
⇒ **Recommended for: All Radiology Users** |
